

AMENDMENTS TO THE SPECIFICATION

Please replace the title of the application with the following new title:

INFORMATION RECORDING/REPRODUCING APPARATUS FOR EDITING
DATA ON A RECORDING MEDIUM

Please replace the 3rd paragraph on page 1, with the following:

It is noted that the coding technology in a MPEG system is capable of compressing moving picture information having enormous ~~information amount~~ amounts of information ~~highly very~~ efficiently by applying variable-length-coding to differentiate information. More particularly, variable-length-coding differentiates the difference information between pictures, which a user desires to code and a reference picture, ~~prior~~ which is present prior to the ~~present~~ picture in ~~time~~ time. It also differentiates between as well as moving vector vectors in units of a macro block.
